

HOW LONG DOES A DISPOSABLE VAPE LAST?

This will depend on how often you use your disposable vape. In general, a disposable vape will provide you with between 1 to 3 days of vaping pleasure. All [Disposable vapes](#) are non-rechargeable and lightweight with a slimline design offering you with an affordable vaping option. IGet disposable vapes and Yumi disposable vapes are available in lots of delicious flavours, so it's a good idea to carry a spare disposable vape with you so it is ready for action whenever you need it.

HOW MANY PUFFS ARE IN A DISPOSABLE VAPE?

The IGet XXL disposable vape offers you with 7mls of E Liquid and provides you with up to 1800 puffs. Although the number of puffs can be affected by every individual user's draw strength and the disposable vape storage temperature. It is best to store your [Disposable Vape Kit](#) and all vaping hardware in a cool, dry place, as moisture can damage the equipment and affect battery life.

You should also avoid leaving your vape device in direct sunlight or in your car.

WHAT ARE THE PROS AND CONS OF DISPOSABLE VAPES?

[IGet Vapes](#) disposable vapes & Yumi disposable vapes have a lot of benefits, especially for beginner vapers who want a great vaping experience with no fuss. Here are some of the reasons our customers at Melbourne Vapes choose disposable vapes.

- Pre-filled with your favourite vape juice
- Smooth vaping experience
- No leaks or vape juice mess

- No dangerous chemicals or tar such as those found in cigarettes
- Compact and lightweight to carry
- Easy to use
- Ideal for beginner vapers

[IGet Bar](#) Disposable vapes are a great all-round vape device with lots of advantages, but there are more advanced vape pod kits and box mods available at Melbourne Vapes. Experienced vape users appreciate refillable pod systems and box mods for personalising their vaping experience. Advanced vape kits, pods and box mods are designed with comfort, style, and power in mind. Advanced vapes deliver consistently high output for a pleasurable throat hit and instant satisfaction.

HOW DOES A DISPOSABLE VAPE WORK?

Disposable vapes such as the [IGet XXL](#) Disposable Vape & Yumi Disposable Vape are already charged and filled with your favourite E Liquid. IGet Disposable vapes & Yumi Disposable vapes offer a simple to use design that is lightweight and convenient to carry on the go. Unlike vape devices that require refilling with E Liquid, replacing coils and require lithium-ion batteries to operate, disposable vapes such as the IGet & Yumi brand are simple to use and straight forward as there is no device maintenance or cleaning required, and the IGet disposable vapes & Yumi Disposable Vapes mimic smoking without the associated harmful ash and toxins. When your IGet disposable vape or Yumi disposable vape is empty, simply replace it with a new one.
